Sunday – Sunday will be the warmest and most humid day of the week with high temperatures near 90F and heat indices approaching 100F (warmest between 3-6pm). This increase in heat and humidity provides some of the ingredients for increased shower/t-storm chances. A brief shower can't be ruled out in the morning, with additional thunderstorm development possible in the Chicagoland area during the late afternoon/early evening, mainly after 5-6pm.
