Thursday – Showers and thunderstorms remain in the area from overnight. These are expected to weaken and move away as the morning progresses. Between 7:30-9:00 is the highest chance for the course to see any rain or thunderstorms. Into the afternoon, conditions are expected to clear, until late afternoon, when additional showers or thunderstorms are possible. Winds outside of thunderstorms will turn from the west-southwest near 10mph. A humid day is expected after the rain heating up into the upper 80s with a heat index in the 90s. **Rainfall: 0.20-0.40" | Sunrise: 7:14am/Sunset: 7:37pm**

Extended forecast – Clear conditions are expected Friday and through Saturday early afternoon. Another storm system is forecast to move into the area Saturday evening through Sunday afternoon. A line of showers and thunderstorms is possible Saturday evening and then scattered showers and thunderstorms possible on Sunday. Winds will remain similar each day near 10mph with gusts in the teens. Temperatures will range from the upper 70s to low 80s in the afternoons.
