Thursday – Hot and gusty conditions will continue today with sustained winds in the teens to low 20s and wind gusts of 25-35mph. Dry conditions are expected throughout the day. A front is expected to pass through the area in the late morning around 12pm which will cause a wind shift from the SW to the NE. Temperatures will rise into the mid 90s with a heat index in the upper 90s.

Extended forecast – A few showers may be moving out of the area early Friday morning. Late Friday, some pop-up thunderstorms are possible. Saturday evening and through the overnight a line of thunderstorms is likely to move through the area. Throughout Sunday, showers and thunderstorms will be possible. Most of the activity is expected to be south of the area, but will depend how far south the front makes it on Saturday. Temperatures will continue to cool off each day with highs in the 80s this weekend. Winds will remain gusty with sustained winds in the teens and wind gusts between 20-30mph.
