Tomorrow – Heavy rain Sunday night into early Monday may become scattered for a period Monday morning. Precipitation is likely to become numerous once again by early afternoon due to a nearby area of low pressure and stalled frontal boundary providing tropical moisture and instability across Bermuda. A few embedded thunderstorms are additionally possible on Monday, with the higher likelihood during the afternoon hours. Southwesterly winds in the morning will turn westerly-northwesterly in the afternoon and northerly by the evening at 15-20 mph along with gusts near 25 mph. The temperature will reach a high near 79°F

Forecast rainfall: 0.75" – 1.50"; locally higher to 2 inches possible | Sunrise: 7:31am / Sunset: 6:34pm
