Winds (mph)	SE 10-15 G20	S→E 7-14	ENE 10-15	ENE 10-15

Extended forecast – Temperatures will continue to be warm over the next couple of days, with highs in the 80s Friday and Saturday. Another front is expected to move slowly southward across Florida on Saturday, interacting with upper-level energy passing over the region. This will bring the chance for scattered showers and isolated thunderstorms Friday afternoon, with showers and a few thunderstorms becoming more likely Saturday afternoon. The front is forecast to slowly shift south of the area Sunday, leading to a decrease in shower chances.
