Today— Patchy fog will be possible through mid-morning but otherwise expect mostly sunny skies with temperatures rising into the low 20s (low 70s) by midday. As winds turn to the east-northeast areas of sea fog will be possible through the afternoon with temperatures falling back into the upper teens (mid 60s). Winds will increase gradually through the afternoon. Showers will become possible towards sunset with fog chances increasing.

Extended forecast – Saturday as a front drops down from the north expect rain to start in the overnight hours and continue through the morning tomorrow. There will be areas of fog mixed in as well. Rain will ease off by midday with scattered light rain showers through the afternoon with areas of fog possible. Temperatures will be much cooler with winds out of the east-northeast. Clouds will linger into Sunday morning with clearing skies in the afternoon. Winds will remain out of the east-northeast.

Forecast prepared by meteorologist Craig Mroczka
