Today – A cold front moving down from the northwest will allow for rain to develop this morning and rain may become briefly heavy around 11am. Rain will taper off after 1pm with light showers lingering through 3pm. Fog will remain with us through most of the day but visibility will improve from 10am. Winds will be strongest later this morning but will ease off slightly into the afternoon.

Sunrise: 4:37am / Sunset: 9:55pm
