Today – High clouds will move down from the north this morning keeping skies mostly cloudy through the early morning, but skies will become sunny this afternoon. Winds will be light out of the east and northeast this morning, but the sea breeze returns this afternoon and will increase with wind gusts up to 23mph. Max temperatures will reach 23C.

Tonight – Winds will begin to diminish after 1800 hours from the north-northwest and skies will remain mostly clear through the overnight with winds becoming light out of the southeast.

Saturday through Monday –Morning clouds will give way to partly sunny skies. A weak trough dropping down from the north will allow for showers and isolated thunderstorms to develop along the Pennines in the afternoon. A shower or two may make it into Southport late in the afternoon and into the evening. Otherwise expect partial sunshine, cooler temperatures and the afternoon sea breeze developing. Sunday will be partly sunny with the afternoon sea breeze continuing. High pressure moves in from the west on Monday allowing for winds to stay out of the northwest throughout the day with partial sunshine and max temperatures around 20C.
