Today – A cold front will reach San Antonio by this afternoon with showers & a few embedded T-storms possible. Impacts to the course will most likely occur between 11am-3pm. Behind the front, temperatures will fall into the 60s with a stiff north breeze. Gusts near 40 mph are possible along the immediate frontal passage with gusts of 30-35 mph remaining possible the remainder of the day.
 Forecast rainfall: 0.25-0.50". **Sunrise: 7:19am / Sunset: 7:54pm**

Day	Tonight	Sunday	Monday

Winds (mph)	N/NE 10-15 G25	N/NE 10-16 G28	NE 8-12 G18

Extended Forecast – Areas of showers could redevelop late tonight into Sunday morning as an upper-level disturbance passes overhead. Significant variability still exists between model guidance, however this forecast favors the drier scenario. Otherwise, Sunday will feature cool conditions with blustery northerly winds in place. Dry conditions are expected Monday with decreasing clouds during the day.
