Today – A few passing showers will be possible this morning. Otherwise, there will be a lull in the precipitation allowing for some sunshine helping to increase the instability over the area. Scattered showers and thunderstorms are forecast to develop between 2pm-6pm before tapering-off this evening. Thunderstorms could be strong with gusty winds and heavy rainfall.

Extended forecast – Hurricane Isaias will accelerate inland and weaken on Saturday. This will leave hot and humid conditions over Florida with highs in the upper 80s. Scattered showers and thunderstorms will become likely once again during the afternoon, producing gusty winds and heavy rainfall. A cold front will sweep through the area Sunday afternoon bringing another chance for showers and thunderstorms as it passes. Drier conditions finally returns Monday
