Winds (mph)	Light and Variable	LV → NE 3-8	N 5-10 G15	LV → NNW 3-8	LV → SW 5-10

**Extended Forecast** – Mostly cloudy skies will be in place overnight. A slight chance of showers early will give way to increasing chances for showers through the afternoon into the evening. A widespread area of persistent rain is expected generally after 5pm tomorrow evening continuing through the overnight hours. Some lingering showers will be possible Saturday morning with clearing expected by the afternoon. Mostly sunny skies will then be in place Sunday into early next week as high pressure moves into the area. Overnight lows will range from the mid-40s to lower 50s with highs in the mid-60s to upper 70s.

Forecast prepared by meteorologist Marcus Hustedde.
